Sprint 4 Report
Product Name: LocSilence
Team Name: LocSilence Team
Date: 12/2/17

**Actions to stop doing:**
- We are completely satisfied with our current process.
- Tasks were finished on time
- Very little blockage
- Everyone made a point to pick up tasks

**Actions to Start doing:**
- Spreading the work out across the week so that sprints are more productive.

**Actions to keep doing:**
- Meeting 3 days a week (although we now meet on Thursdays to accommodate the TA)
- Maintaining a fenced 15 minute scrum, leading into a management/architecture meeting
- Accommodating each other's schedules
- Keeping the team drive and github organized
- Communicating consistently through the group chat

**Work Completed:**
The scrum board and backlog were planned mostly accurately and many task/user story's on our sprint 4 board were completed
1. As a developer I want LocSilenece to Temporarily modify the phones volume setting
2. As the user I want to have my app look beautiful and intuitive to use
3. As the user I want to visually see which locations will be altered by LocSilence.
4. As the developer I want my app to be adequately tested with relevant unit tests
5. As the user I want my locations to come up with previous settings that I set for the locations when I edit it
6. As a user I want locSilence to be efficient and not cpu intensive
7. As the developer I want clean code

**Work Completion Rate:**
- User stories: 7 (split into 32 tasks)
- Ideal work hours: 74
- Sprint days: 14
