LocSilence Definition of Done (DoD)

A task is not considered to be done until each of these criteria have been fulfilled:

1. Core functionality of task is fulfilled
2. New unit tests are written if possible
3. New functionality is integrated with other parts of the software
4. New and previous unit tests have been run and passed
5. No new unnecessary/unchecked warnings or errors occur
6. New code has been properly formatted
   - Imports optimized
   - Android Studio auto-formatter for java has been run
   - Camelcase java variable names
7. New code has been integrated in 'development' branch of source-control
8. Team notified on status of task through group chat
